A POLICY AGENDA TO DRIVE POSITIVE CHANGE

As the automotive industry experiences significant disruption, MTA NSW is at the forefront of the conversation on a wide range of policy issues

INDUSTRY TRENDS

Transition to
low & zero emission
vehicles

Workplace &
industrial relations

Labour shortages &
reskilling of existing
labour

Attracting
& retaining
new talent

Developing recycling
and circular strategies

RESPONSE TO INDUSTRY TRENDS

Investing in capital,
equipment & skills

Evolving the supply chain

Developing an automotive
circular economy

Data-driven customer service

OUR PRIORITY POLICY ISSUES

SKILLS & TRAINING

Increase support for training providers to address the skills deficit & create migration pathways

SHIFT TO ELECTRIC VEHICLES

Improve EV affordability & choice through policy measures that stimulate uptake

INSURANCE & VEHICLE REPAIR

Update & strengthen the Motor Vehicle Insurance & Repair Industry Code of Conduct

FRANCHISING

Advance franchising reform to address the power imbalance facing all auto & equipment franchisees

END OF LIFE VEHICLES

Introduce regulatory requirements for vehicle disposal to prevent valuable resources from entering landfill

CONTACT US

MTA NSW wishes to work closely with government and industry to develop and implement policy solutions that support the evolution of the automotive sector.
